SAVE OLD GLOVES TO  
MAKE SAMMY A JACKET

The newly discovered disease, called "knitting nerves," may be slipped in the bud before assuming alarming proportions, and the click of the busy needles heard everywhere may be silenced, if patriotic American women follow the example of their English cousins, and substitute the "glove waistcoat" for the sweaters they are now so simply knitting for our Sammies and Jackies.

Some of the advantages of the new waistcoat over the sweater are:

It is made of waste material—discarded kid gloves—and is therefore much cheaper to make.

Its lining costs only 35 cents.

Only a day or two is required in the making.

It weighs a few ounces and when not in use can be carried in the pocket.

It is windproof, warm and, last but not least to the wearer, verminproof.

Thousands of old kid gloves have already been made into these garments and it is certain that as soon as American women discover how easily they can be made many thousands more will be used.

The photo shows a United States marine wearing one of the new waistcoats.

### STILL THE CALL IS FOR MORE NURSES

Surgeon General Gorgas Urges Young Women to Take Up Training Courses.

Nurses, more nurses and still more nurses! is the call from the American army in France.

Surgeon General Gorgas is urging young women to begin the training courses to fit them for service at the front, or at least to take the places of nurses who go to the front, where 30,000 are needed.

"The need for nurses will not end with the declaration of peace," his department points out. "Therefore, those who begin the course of training are assured of employment in the future as well as doing a patriotic service now. The number of new students in the schools throughout the country should be limited only by their facilities to teach and the clinical facilities of the hospitals."

In this connection it is recalled that Surgeon General Gorgas had an experience with nurses when he was in charge of sanitation in the Panama Canal zone that may be duplicated in France. It was found extremely difficult to keep nurses in Panama because the American men there married them almost as fast as they came!

"The epidemic of matrimony," as it was called in Panama, is likely to break out in France. However, both nurses and soldiers are over there strictly on business with the kaiser, and if romances bud they will not flower until peace is declared.

Students are at no expense for tuition, board, laundry, lodging, uniforms, etc., and information about where to enroll for the training courses may be obtained from any Red Cross chapter.

## A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

Prices of all farm products are higher today than ever before in our memory; and more especially is it true with Tobacco, Corn and Live Stock, and this is where we shine in North Christian.
